

MCW Cancer Center Shared Resource Acknowledgement Statement

A condition for using MCW Cancer Center supported Shared Resources is that each Shared Resource is acknowledged in the publication. The Cancer Center has invested heavily in Shared Resource expertise, instrumentation, and administration and it is therefore imperative that, whenever possible, Shared Resource activity be acknowledged publications as well as posters and presentations even if the work of the Shared Resource has been fully funded by a PI (for instance, through existing grants). The acknowledgments enable the Cancer Center to measure and document Shared Resource productivity, impact, and service to members.

Acknowledgment Criteria

- Basic scientific advice and consultation
- Fee-for-service technical help
- Standard fee-for-service analysis
- Minor material support, *e.g.*, cells, antibodies, DNA
- Boilerplate Methods write-up

Cut-and-Paste Acknowledgement

“The authors acknowledge the following Shared Resources _____ <choose from the list below, separated by commas> _____ at the Medical College of Wisconsin Cancer Center.”

- Biostatistics Shared Resource (BSSR)
- Biorepository & Tissue Analytics Shared Resource (BTASR)
- Cell Therapy Shared Resource (CTSR)
- Geospatial, Epidemiology and Outcomes Shared Resource (GEOSR)
- Structural Biology Shared Resource (SBSR)
- Translational Metabolomics Shared Resource (TRAM SR)
 - Biomedical Imaging Unit
 - Redox and Bioenergetics Unit
 - Mass Spectrometry Core
 - Quantitative Imaging Lab

In certain instances, scientific contributions by Shared Resource directors or staff involve intellectual effort and collaborative involvement that rise to the level of authorship on resulting publications. The Shared Resource should also be acknowledged in these cases.
