About the Postdoctoral Fellowship

The program provides up to 3 years of broad-based, personalized, supportive, and rigorous training in specific areas of scientific excellence in a highly-integrated research environment incorporating mentoring teams with access to an extensive research infrastructure at the Medical College of Wisconsin.

Applicants should be highly-motivated, ambitious, productive, and have (or anticipate having) a PhD, PharmD, MD, or DO in a relevant research area such as biology, molecular biology, genetics, immunology, biochemistry, pharmacology, or physiology.

T32 Program Directors:

Mary Sorci-Thomas, PhD
Associate Director, Cardiovascular Research
Center, Professor of Medicine

Justin Grobe, PhD
Professor of Physiology

Jacquelyn Kulinski, MD
Professor of Medicine

Atherosclerosis, Thrombosis, & Vascular Biology Mentors

William Campbell, PhD
 Magdalena Chrzanowska, PhD
 John Corbett, PhD
 Matt Durand, PhD
 Julie Freed, MD, PhD
 Benjamin Gantner, PhD
 Jonathan Marchant, PhD
 Stephanie Olivier-Van Stichelen, PhD
 Daisy Sahoo, PhD
 Brian Smith, PhD
 Mary Sorci-Thomas, PhD
 Michael Widlansky, MD, MPH
 Ze Zheng, MBBS, PhD

Cardiac Biology & Heart Failure Mentors

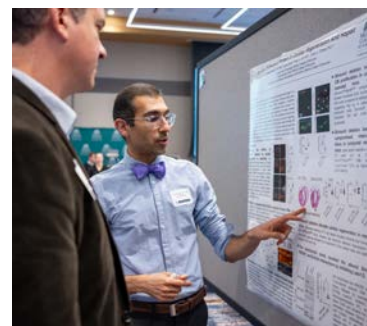

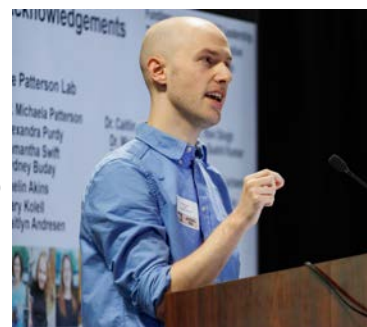

John Auchampach, PhD
 Lu Han, PhD
 Tammy Kindel, MD, PhD
 Joy Lincoln, PhD
 Brian Link, PhD
 Caitlin O'Meara, PhD
 Michaela Patterson, PhD
 Brandon Tefft, PhD

Hypertension Mentors

Allen Cowley, Jr., PhD
 Justin Grobe, PhD
 Anne Kwitek, PhD
 Curt Sigmund, PhD

Cardio-Oncology Mentors

Andreas Beyer, PhD
 Aron Geurts, PhD
 Balaraman Kalyanaraman, PhD
 Melinda Stolley, PhD

“I have been a part of 2 other T32 programs and I have been trained in 4 different institutions. That being said, I must say the CVC training program was by far the most intensive and complete I have ever seen. Overall, this fantastic experience will be instrumental to achieving my final goals.”

– Pablo Nakagawa, PhD
